Plot 4 Lower Kololo Terrace

Revive is a pioneer farm to table restaurants in Kampala. We hope to inspire others on the beauty and benefits of conscious eating.

There is no substitute for produce that has been grown with care. We always choose the natural way.

We have been sourcing and serving the freshest, high quality ingredients we can get our hands on. We understand the impact a nutritious and balanced diet has on your body & mind, and that's why we have developed a menu that will cater to all your nutrition needs.

Aside from giving back to the local community, having ingredients readily available allows us to utilize fresh ingredients in all the dishes we serve you.

Wander through our on-site urban garden where you will find immaculately preserved beds hosting everything from kale to tomatoes, herbs and other spices.
